

# Community Safety and Well-Being Plan (CSWBP)

Strategic Priority: Shared Community Well-Being Action Table

Quarter: 2  
Date: September 27, 2021

	Targeted Outcomes	Activities/Achievements	Challenges
1.	Increase in resident's sense of belonging and safety.	a. Not yet underway.	i.
2.	Increase in vulnerable residents' experiences regarding ease of access to services and critical supports, as well as positive and sustainable outcomes.	a. No actions have been completed to measure this outcome through Community Mobilization Timmins/Situation Table, however preliminary information from Point-in-Time (PIT) count completed in August demonstrates clients feel that significant barriers exist to them accessing support and to participating in the community, and data from Living Space guest feedback activities indicates a feeling of marginalization and disconnect from the community amongst people experiencing homelessness/at risk of homelessness (EH/ARH).	i.
3.	Increase in community-wide education and awareness on safety and belongingness (i.e. strong Neighbourhoods Strategy).	a. No actions have been completed to measure this outcome through Community Mobilization Timmins/Situation Table, although improved collaboration between organizations providing health and/or social support and private business. Demonstrated through collaborative projects with the Downtown BIA, Timmins Chamber of Commerce. An important project to highlight is the collaboration between Living Space & Scotiabank which aims to expand the Street Outreach program through the purchase of a van for Living Space and through targeted training for Scotiabank staff by Living Space on homelessness and how to support people in crisis.	i.
4.		a.	i.

Q1- January – March; Q2- April – June; Q3- July – September; Q4- October - December
